A SELECT LIST OF STELLAR, IN-HOUSE DEVELOPED ANTIBODIES FROM ABGENT

www.abgent.com

About Us As your partner in research and drug discovery, Abgent offers a variety of primary antibodies widely used for the study of biological processes, signaling pathways, and disease. Most of our antibodies are developed, validated, and optimized in-house to ensure product quality, fast and accurate technical support, and availability. Please contact us or visit our website at www.abgent.com to learn more about our antibodies, related products and services.
