

# Anti-V5-Tag Rabbit Monoclonal Antibody

Catalog # ABO13813

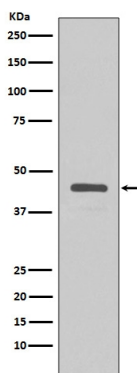

## Product Information

|                    |                                                                                                                 |
|--------------------|-----------------------------------------------------------------------------------------------------------------|
| <b>Application</b> | WB                                                                                                              |
| <b>Host</b>        | Rabbit                                                                                                          |
| <b>Isotype</b>     | Rabbit IgG                                                                                                      |
| <b>Reactivity</b>  | Rat, Human, Mouse                                                                                               |
| <b>Clonality</b>   | Monoclonal                                                                                                      |
| <b>Format</b>      | Liquid                                                                                                          |
| <b>Description</b> | Anti-V5-Tag Rabbit Monoclonal Antibody . Tested in WB application. This antibody reacts with Human, Mouse, Rat. |

## Additional Information

|                            |                                                                                                                                            |
|----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Application Details</b> | WB 1:3000-1:10000                                                                                                                          |
| <b>Contents</b>            | Rabbit IgG in phosphate buffered saline, pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol, 0.4-0.5mg/ml BSA.                        |
| <b>Clone Names</b>         | Clone: DA-22                                                                                                                               |
| <b>Immunogen</b>           | A synthesized peptide                                                                                                                      |
| <b>Purification</b>        | Affinity-chromatography                                                                                                                    |
| <b>Storage</b>             | Store at -20°C for one year. For short term storage and frequent use, store at 4°C for up to one month. Avoid repeated freeze-thaw cycles. |
