

# Anti-CD134 Monoclonal Antibody

Catalog # ABO14667

## Product Information

---

|                          |                                                                                                                 |
|--------------------------|-----------------------------------------------------------------------------------------------------------------|
| <b>Application</b>       | WB, FC                                                                                                          |
| <b>Primary Accession</b> | <a href="#">P43489</a>                                                                                          |
| <b>Host</b>              | Rabbit                                                                                                          |
| <b>Isotype</b>           | Rabbit IgG                                                                                                      |
| <b>Reactivity</b>        | Human                                                                                                           |
| <b>Clonality</b>         | Monoclonal                                                                                                      |
| <b>Format</b>            | Liquid                                                                                                          |
| <b>Description</b>       | Anti-CD134 Monoclonal Antibody . Tested in WB, Flow Cytometry applications.<br>This antibody reacts with Human. |

## Additional Information

| <b>Other Names</b>                     | Tumor necrosis factor receptor superfamily member 4, ACT35 antigen, OX40L receptor, TAX transcriptionally-activated glycoprotein 1 receptor, CD134, TNFRSF4, TXGP1L |
| <b>Calculated MW</b>                   | 29341                                                                                                                                                               |
| <b>Application Details</b>             | WB 1:500-1:1000<br>FC 1:50                                                                                                                                          |
| <b>Source</b>                          | Eukaryota                                                                                                                                                           |
| <b>Contents</b>                        | Rabbit IgG in phosphate buffered saline, pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol, 0.4-0.5mg/ml BSA.                                                 |
| <b>Clone Names</b><br><b>Immunogen</b> | Clone: AEHA-20<br>A synthesized peptide derived from human CD134 Receptor for TNFSF4/OX40L/GP34.                                                                    |
| <b>Purification</b>                    | Affinity-chromatography                                                                                                                                             |
| <b>Storage</b>                         | Store at -20°C for one year. For short term storage and frequent use, store at 4°C for up to one month. Avoid repeated freeze-thaw cycles.                          |

## Protein Information

---

|                 |         |
|-----------------|---------|
| <b>Name</b>     | TNFRSF4 |
| <b>Synonyms</b> | TXGP1L  |

**Function** Receptor for TNFSF4/OX40L/GP34. Is a costimulatory molecule implicated in long-term T-cell immunity.

**Cellular Location** Membrane; Single-pass type I membrane protein.

## Images

---

Western blot analysis of CD134 expression in Human fetal spleen lysate.
