

# Anti-His-Tag Mouse Monoclonal Antibody

Catalog # ABO15128

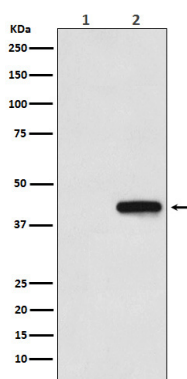

## Product Information

|                    |                                                                                                                              |
|--------------------|------------------------------------------------------------------------------------------------------------------------------|
| <b>Application</b> | WB, IF, ICC, IP                                                                                                              |
| <b>Host</b>        | Mouse                                                                                                                        |
| <b>Isotype</b>     | IgG1                                                                                                                         |
| <b>Reactivity</b>  | Rat, Human, Mouse                                                                                                            |
| <b>Clonality</b>   | Monoclonal                                                                                                                   |
| <b>Format</b>      | Liquid                                                                                                                       |
| <b>Description</b> | Anti-His-Tag Mouse Monoclonal Antibody . Tested in WB, ICC/IF, IP applications. This antibody reacts with Human, Mouse, Rat. |

## Additional Information

|                            |                                                                                                                                            |
|----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Application Details</b> | WB 1:1000-1:5000<br>ICC/IF 1:100-1:200<br>IP 1:100                                                                                         |
| <b>Contents</b>            | Mouse IgG in phosphate buffered saline, pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol, 0.4-0.5mg/ml BSA.                         |
| <b>Clone Names</b>         | Clone: 17H03                                                                                                                               |
| <b>Immunogen</b>           | A synthesized peptide                                                                                                                      |
| <b>Purification</b>        | Affinity-chromatography                                                                                                                    |
| <b>Storage</b>             | Store at -20°C for one year. For short term storage and frequent use, store at 4°C for up to one month. Avoid repeated freeze-thaw cycles. |

## Images

Western blot analysis of His-tagged protein expression in (1) 293T cell lysate; (2) 293T cell transfected with His-tagged protein lysate.
