

# Anti-CaMKII Rabbit Monoclonal Antibody

Catalog # ABO16125

## Product Information

---

|                          |                                                                                                                                  |
|--------------------------|----------------------------------------------------------------------------------------------------------------------------------|
| <b>Application</b>       | WB, FC                                                                                                                           |
| <b>Primary Accession</b> | <a href="#">Q9UQM7/Q13554/Q13555/Q13557</a>                                                                                      |
| <b>Host</b>              | Rabbit                                                                                                                           |
| <b>Isotype</b>           | IgG                                                                                                                              |
| <b>Reactivity</b>        | Rat, Human, Mouse                                                                                                                |
| <b>Clonality</b>         | Monoclonal                                                                                                                       |
| <b>Format</b>            | Liquid                                                                                                                           |
| <b>Description</b>       | Anti-CaMKII Rabbit Monoclonal Antibody . Tested in WB, Flow Cytometry applications. This antibody reacts with Human, Mouse, Rat. |

## Additional Information

---

|                            |                                                                                                                                            |
|----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Calculated MW</b>       | 50 KDa                                                                                                                                     |
| <b>Application Details</b> | WB 1:500-1:2000<br>FC 1:50                                                                                                                 |
| <b>Contents</b>            | Rabbit IgG in phosphate buffered saline, pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol, 0.4-0.5mg/ml BSA.                        |
| <b>Clone Names</b>         | Clone: 27C04                                                                                                                               |
| <b>Immunogen</b>           | A synthesized peptide derived from human CaMKII                                                                                            |
| <b>Purification</b>        | Affinity-chromatography                                                                                                                    |
| <b>Storage</b>             | Store at -20°C for one year. For short term storage and frequent use, store at 4°C for up to one month. Avoid repeated freeze-thaw cycles. |
