

# Anti-TOE1 Rabbit Monoclonal Antibody

Catalog # ABO16220

## Product Information

---

|                          |                                                                                                   |
|--------------------------|---------------------------------------------------------------------------------------------------|
| <b>Application</b>       | WB                                                                                                |
| <b>Primary Accession</b> | <a href="#">Q96GM8</a>                                                                            |
| <b>Host</b>              | Rabbit                                                                                            |
| <b>Isotype</b>           | IgG                                                                                               |
| <b>Reactivity</b>        | Human                                                                                             |
| <b>Clonality</b>         | Monoclonal                                                                                        |
| <b>Format</b>            | Liquid                                                                                            |
| <b>Description</b>       | Anti-TOE1 Rabbit Monoclonal Antibody . Tested in WB application. This antibody reacts with Human. |

## Additional Information

|                            |                                                                                                                                            |
|----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Gene ID</b>             | 114034                                                                                                                                     |
| <b>Other Names</b>         | Target of EGR1 protein 1, TOE1                                                                                                             |
| <b>Calculated MW</b>       | 56548                                                                                                                                      |
| <b>Application Details</b> | WB 1:500-1:2000                                                                                                                            |
| <b>Source</b>              | Eukaryota                                                                                                                                  |
| <b>Contents</b>            | Rabbit IgG in phosphate buffered saline, pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol, 0.4-0.5mg/ml BSA.                        |
| <b>Clone Names</b>         | Clone: 27T99                                                                                                                               |
| <b>Immunogen</b>           | A synthesized peptide derived from human TOE1                                                                                              |
| <b>Purification</b>        | Affinity-chromatography                                                                                                                    |
| <b>Storage</b>             | Store at -20°C for one year. For short term storage and frequent use, store at 4°C for up to one month. Avoid repeated freeze-thaw cycles. |

## Protein Information

---

|                          |                                                                                                                                                                                                                                                           |
|--------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Name</b>              | TOE1                                                                                                                                                                                                                                                      |
| <b>Function</b>          | Inhibits cell growth rate and cell cycle. Induces CDKN1A expression as well as TGF-beta expression. Mediates the inhibitory growth effect of EGR1. Involved in the maturation of snRNAs and snRNA 3'-tail processing (PubMed: <a href="#">28092684</a> ). |
| <b>Cellular Location</b> | Nucleus, nucleolus. Nucleus speckle. Note=Localizes to nuclear speckles                                                                                                                                                                                   |

**Tissue Location**

Widely expressed..

## Images

---

Western blot analysis of TOE1 expression in 293T cell lysate.
