

# Anti-MS4A14 Rabbit Monoclonal Antibody

Catalog # ABO16444

## Product Information

---

|                          |                                                                                                     |
|--------------------------|-----------------------------------------------------------------------------------------------------|
| <b>Application</b>       | WB                                                                                                  |
| <b>Primary Accession</b> | <a href="#">Q96JA4</a>                                                                              |
| <b>Host</b>              | Rabbit                                                                                              |
| <b>Isotype</b>           | IgG                                                                                                 |
| <b>Reactivity</b>        | Human                                                                                               |
| <b>Clonality</b>         | Monoclonal                                                                                          |
| <b>Format</b>            | Liquid                                                                                              |
| <b>Description</b>       | Anti-MS4A14 Rabbit Monoclonal Antibody . Tested in WB application. This antibody reacts with Human. |

## Additional Information

---

|                            |                                                                                                                                            |
|----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Gene ID</b>             | 84689                                                                                                                                      |
| <b>Other Names</b>         | Membrane-spanning 4-domains subfamily A member 14, Testis development protein NYD-SP21, MS4A14, MS4A13, MS4A16                             |
| <b>Calculated MW</b>       | 76580                                                                                                                                      |
| <b>Application Details</b> | WB 1:500-1:2000                                                                                                                            |
| <b>Source</b>              | Eukaryota                                                                                                                                  |
| <b>Contents</b>            | Rabbit IgG in phosphate buffered saline, pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol, 0.4-0.5mg/ml BSA.                        |
| <b>Clone Names</b>         | Clone: 29M80                                                                                                                               |
| <b>Immunogen</b>           | A synthesized peptide derived from human MS4A14                                                                                            |
| <b>Purification</b>        | Affinity-chromatography                                                                                                                    |
| <b>Storage</b>             | Store at -20°C for one year. For short term storage and frequent use, store at 4°C for up to one month. Avoid repeated freeze-thaw cycles. |

## Protein Information

---

|                 |                                                                                         |
|-----------------|-----------------------------------------------------------------------------------------|
| <b>Name</b>     | MS4A14                                                                                  |
| <b>Synonyms</b> | MS4A13, MS4A16                                                                          |
| <b>Function</b> | May be involved in signal transduction as a component of a multimeric receptor complex. |

**Cellular Location**

Membrane; Multi-pass membrane protein

## Images

---

Western blot analysis of MS4A14 expression in MCF7 cell lysate.
