

# Anti-PKC Rabbit Monoclonal Antibody

Catalog # ABO16720

## Product Information

---

|                          |                                                                                                                                           |
|--------------------------|-------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Application</b>       | WB, IP, FC                                                                                                                                |
| <b>Primary Accession</b> | <a href="#">P05129/P05771/P17252/Q02156/Q05513/Q05655</a>                                                                                 |
| <b>Host</b>              | Rabbit                                                                                                                                    |
| <b>Isotype</b>           | Rabbit IgG                                                                                                                                |
| <b>Reactivity</b>        | Rat, Human, Mouse                                                                                                                         |
| <b>Clonality</b>         | Monoclonal                                                                                                                                |
| <b>Format</b>            | Liquid                                                                                                                                    |
| <b>Description</b>       | Anti-PKC Rabbit Monoclonal Antibody . Tested in WB, ICC/IF, IP, Flow Cytometry applications. This antibody reacts with Human, Mouse, Rat. |

## Additional Information

---

|                                        |                                                                                                                                            |
|----------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Application Details</b>             | WB 1:500-1:2000<br>ICC/IF 1:50-1:200<br>IP 1:50<br>FC 1:50                                                                                 |
| <b>Contents</b>                        | Rabbit IgG in phosphate buffered saline, pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol, 0.4-0.5mg/ml BSA.                        |
| <b>Clone Names</b><br><b>Immunogen</b> | Clone: 31P91<br>A synthesized peptide derived from human PKC                                                                               |
| <b>Purification</b>                    | Affinity-chromatography                                                                                                                    |
| <b>Storage</b>                         | Store at -20°C for one year. For short term storage and frequent use, store at 4°C for up to one month. Avoid repeated freeze-thaw cycles. |
