

Anti-V5 epitope tag, Human IgG1 Antibody

Catalog # ABV11797

Product Information

Application	WB, IHC-F, IF, E, IP, RIA
Host	Recombinant
Clonality	Monoclonal
Isotype	Human IgG1, kappa

Additional Information

Alias Symbol	V5-Tag
Other Names	Regulator of expression of viral proteins; protein rev; V5 epitope tag; GKPIPPLLGLDST epitope tag; GKPIPPLLGLDST tag
Appearance	Colorless liquid
Formulation	200 µg affinity purified human antibody in phosphate-buffered saline (PBS) containing 0.02% Proclin 300
Reconstitution & Storage	-20 °C
Background Descriptions	
Precautions	Anti-V5 epitope tag, Human IgG1 Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

Background

V5-tag is a 14 amino acid peptide derived from the P and V proteins of the paramyxovirus of simian virus 5 (SV5). The V5-tagged protein expression system is preferably used in various laboratories. Hence, the anti-V5-Tag antibody is a useful tool for monitoring of the V5-tagged protein.

Please note: All products are 'FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC OR THERAPEUTIC PROCEDURES'.
