

# Anti-ABCF1 Antibody

Catalog # ABV11967

## Product Information

---

|                   |                        |
|-------------------|------------------------|
| Application       | WB                     |
| Primary Accession | <a href="#">Q8NE71</a> |
| Reactivity        | Human, Mouse, Rat      |
| Host              | Rabbit                 |
| Isotype           | Rabbit IgG             |
| Calculated MW     | 95926                  |

## Additional Information

---

|                          |                                                                                                              |
|--------------------------|--------------------------------------------------------------------------------------------------------------|
| Gene ID                  | 23                                                                                                           |
| Positive Control         | WB: HeLa, COLO205, HCT116, mouse testis, rat testis lysates                                                  |
| Application & Usage      | WB; 1:500 – 1:2000                                                                                           |
| Other Names              | ABC50, ATP-binding cassette sub-family F member 1, ATP-binding cassette 50, TNF-alpha-stimulated ABC protein |
| Target/Specificity       | ABCF1                                                                                                        |
| Antibody Form            | Liquid                                                                                                       |
| Appearance               | Colorless liquid                                                                                             |
| Handling                 | The antibody solution should be gently mixed before use                                                      |
| Reconstitution & Storage | -20°C                                                                                                        |
| Background Descriptions  |                                                                                                              |
| Precautions              | Anti-ABCF1 Antibody is for research use only and not for use in diagnostic or therapeutic procedures.        |

## Protein Information

---

|                   |                                                                                                                                               |
|-------------------|-----------------------------------------------------------------------------------------------------------------------------------------------|
| Name              | ABCF1                                                                                                                                         |
| Synonyms          | ABC50                                                                                                                                         |
| Function          | Isoform 2 is required for efficient Cap- and IRES-mediated mRNA translation initiation. Isoform 2 is not involved in the ribosome biogenesis. |
| Cellular Location | [Isoform 2]: Cytoplasm. Nucleus, nucleoplasm. Nucleus envelope                                                                                |
| Tissue Location   | Ubiquitous..                                                                                                                                  |

## Images

---

WB analysis of ABCF expression in HeLa (A); COLO205 (B ; HCT116 (C); mouse testis (D);rattestis(E) whole cell lysates.

Please note: All products are 'FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC OR THERAPEUTIC PROCEDURES'.
