

Arginase-1

Rabbit Monoclonal antibody(Mab)

Catalog # AD80387

Product Information

Application	IHC-P
Primary Accession	P05089
Reactivity	Human
Host	Rabbit
Clonality	Monoclonal
Clone Names	114G7B3
Calculated MW	34735

Additional Information

Gene ID	383
Gene Name	ARG1
Other Names	Arginase-1, 3.5.3.1, Liver-type arginase, Type I arginase, ARG1
Dilution	IHC-P~~Ready-to-use
Storage	Maintain refrigerated at 2-8°C.
Precautions	Arginase-1 Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

Protein Information

Name	ARG1
Function	Key element of the urea cycle converting L-arginine to urea and L-ornithine, which is further metabolized into metabolites proline and polyamides that drive collagen synthesis and bioenergetic pathways critical for cell proliferation, respectively; the urea cycle takes place primarily in the liver and, to a lesser extent, in the kidneys.
Cellular Location	Cytoplasm. Cytoplasmic granule. Note=Localized in azurophil granules of neutrophils (PubMed:15546957)
Tissue Location	Within the immune system initially reported to be selectively expressed in granulocytes (polymorphonuclear leukocytes [PMNs]) (PubMed:15546957). Also detected in macrophages mycobacterial granulomas (PubMed:23749634). Expressed in group2 innate lymphoid cells (ILC2s) during lung disease (PubMed:27043409)
