

Myoglobin antibody

Mouse Monoclonal Antibody (Mab) Catalog # AD80541

Product Information

Application IHC
Primary Accession P02144
Reactivity Human
Host Mouse
Clonality Monoclonal
Clone Names 173K5Q8
Calculated MW 17184

Additional Information

Gene ID 4151

Other Names Myoglobin, MB

Dilution IHC~~1:100~500

Storage Maintain refrigerated at 2-8°C.

Protein Information

Name MB (HGNC:6915)

Function Monomeric heme protein which primary function is to store oxygen and

facilitate its diffusion within muscle tissues. Reversibly binds oxygen through a pentacoordinated heme iron and enables its timely and efficient release as

needed during periods of heightened demand (PubMed:30918256,

PubMed:34679218). Depending on the oxidative conditions of tissues and

cells, and in addition to its ability to bind oxygen, it also has a nitrite

reductase activity whereby it regulates the production of bioactive nitric oxide (PubMed:32891753). Under stress conditions, like hypoxia and anoxia, it also protects cells against reactive oxygen species thanks to its pseudoperoxidase

activity (PubMed: 34679218).

Cellular Location Cytoplasm, sarcoplasm

Please note: All products are 'FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC OR THERAPEUTIC PROCEDURES'.
