

# MYNN antibody - middle region

Rabbit Polyclonal Antibody Catalog # AI10080

## **Product Information**

## **Additional Information**

Gene ID	55892
Alias Symbol Other Names	OSZF, SBBIZ1, ZBTB31, ZNF902 Myoneurin, Zinc finger and BTB domain-containing protein 31, MYNN, OSZF, ZBTB31
Target/Specificity	Myoneurin belongs to the BTB/POZ and zinc finger protein family. The BTB/POZ and zinc finger proteins (BTB/POZ-ZF) constitute a growing family of proteins with gene expression regulatory functions since they have been shown to be involved in both transcriptional activation and repression of various genes in a broad range of species.
Format	Liquid. Purified antibody supplied in 1x PBS buffer with 0.09% (w/v) sodium azide and 2% sucrose.
Reconstitution & Storage	Add 100 ul of distilled water. Final anti-MYNN antibody concentration is 1 mg/ml in PBS buffer with 2% sucrose. For longer periods of storage, store at -20°C. Avoid repeat freeze-thaw cycles.
Precautions	MYNN antibody - middle region is for research use only and not for use in diagnostic or therapeutic procedures.

#### **Protein Information**

Name	MYNN
Synonyms	OSZF, ZBTB31
Cellular Location	Nucleus.

Mainly expressed in the neuromuscular system. Located in and around synaptic myonuclei in adult muscle. Expression is dysregulated after nerve injury. Also found in the testis, ovary and placenta.

## Background

This is a rabbit polyclonal antibody against MYNN. It was validated on Western Blot using a cell lysate as a positive control. Abgent strives to provide antibodies covering each member of a whole protein family of your interest. We also use our best efforts to provide you antibodies recognize various epitopes of a target protein. For availability of antibody needed for your experiment, please inquire (sales@abgent.com).
