

# CTBP1 antibody - C-terminal region

Rabbit Polyclonal Antibody

Catalog # AI10367

## Product Information

---

|                          |                                                             |
|--------------------------|-------------------------------------------------------------|
| <b>Application</b>       | WB                                                          |
| <b>Primary Accession</b> | <a href="#">Q7Z2Q5</a>                                      |
| <b>Other Accession</b>   | <a href="#">NM_001012614</a> , <a href="#">NP_001012632</a> |
| <b>Reactivity</b>        | Human, Mouse, Rat, Pig, Dog                                 |
| <b>Predicted</b>         | Human, Mouse, Rat, Chicken, Dog                             |
| <b>Host</b>              | Rabbit                                                      |
| <b>Clonality</b>         | Polyclonal                                                  |
| <b>Calculated MW</b>     | 47 KDa                                                      |

## Additional Information

---

|                                     |                                                                                                                                                                                                 |
|-------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Alias Symbol</b>                 | BARS                                                                                                                                                                                            |
| <b>Format</b>                       | Liquid. Purified antibody supplied in 1x PBS buffer with 0.09% (w/v) sodium azide and 2% sucrose.                                                                                               |
| <b>Reconstitution &amp; Storage</b> | Add 100 ul of distilled water. Final anti-CTBP1 antibody concentration is 1 mg/ml in PBS buffer with 2% sucrose. For longer periods of storage, store at 20°C. Avoid repeat freeze-thaw cycles. |
| <b>Precautions</b>                  | CTBP1 antibody - C-terminal region is for research use only and not for use in diagnostic or therapeutic procedures.                                                                            |
