

# Znf185 Antibody - middle region

Rabbit Polyclonal Antibody

Catalog # AI10628

## Product Information

---

|                          |                                     |
|--------------------------|-------------------------------------|
| <b>Application</b>       | WB                                  |
| <b>Primary Accession</b> | <a href="#">Q62394</a>              |
| <b>Reactivity</b>        | Human, Mouse, Rat, Pig, Dog, Bovine |
| <b>Predicted</b>         | Human, Mouse, Rat, Pig, Dog, Bovine |
| <b>Host</b>              | Rabbit                              |
| <b>Clonality</b>         | Polyclonal                          |
| <b>Calculated MW</b>     | 38322                               |

## Additional Information

---

|                                     |                                                                                                                                                                                                       |
|-------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Gene ID</b>                      | 22673                                                                                                                                                                                                 |
| <b>Other Names</b>                  | Zinc finger protein 185, LIM domain protein Zfp185, P1-A, Znf185, Zfp185                                                                                                                              |
| <b>Format</b>                       | Liquid. Purified antibody supplied in 1x PBS buffer with 0.09% (w/v) sodium azide and 2% sucrose.                                                                                                     |
| <b>Reconstitution &amp; Storage</b> | Add 50 $\mu$ l of distilled water. Final Anti-Znf185 antibody concentration is 1 mg/ml in PBS buffer with 2% sucrose. For longer periods of storage, store at -20°C. Avoid repeat freeze-thaw cycles. |
| <b>Precautions</b>                  | Znf185 Antibody - middle region is for research use only and not for use in diagnostic or therapeutic procedures.                                                                                     |

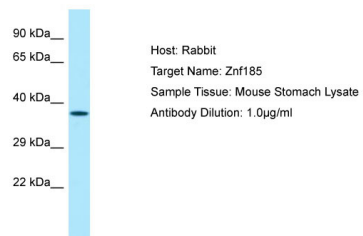

## Protein Information

---

|                          |                                                                                                              |
|--------------------------|--------------------------------------------------------------------------------------------------------------|
| <b>Name</b>              | Znf185                                                                                                       |
| <b>Synonyms</b>          | Zfp185                                                                                                       |
| <b>Function</b>          | May be involved in the regulation of cellular proliferation and/or differentiation.                          |
| <b>Cellular Location</b> | Cytoplasm, cytoskeleton. Cell junction, focal adhesion                                                       |
| <b>Tissue Location</b>   | Expressed in skin, kidney, ovary, testis. Also expressed in brain, cartilage, heart, lung, spleen and thymus |
