

# Cacng8 antibody - middle region

Rabbit Polyclonal Antibody Catalog # AI10825

#### **Product Information**

Application WB
Primary Accession Q8VHW2

Other Accession <u>NM 133190, NP 573453</u>

**Reactivity** Human, Mouse, Rat, Pig, Dog, Bovine

**Predicted** Mouse, Rat, Pig, Bovine

Host Rabbit
Clonality Polyclonal
Calculated MW 43453

#### **Additional Information**

Other Names Voltage-dependent calcium channel gamma-8 subunit, Neuronal

voltage-gated calcium channel gamma-8 subunit, Transmembrane AMPAR

regulatory protein gamma-8, TARP gamma-8, Cacng8

Format Liquid. Purified antibody supplied in 1x PBS buffer with 0.09% (w/v) sodium

azide and 2% sucrose.

**Reconstitution & Storage** Add 50 ul of distilled water. Final anti-Cacng8 antibody concentration is 1

mg/ml in PBS buffer with 2% sucrose. For longer periods of storage, store at

20°C. Avoid repeat freeze-thaw cycles.

**Precautions** Cacng8 antibody - middle region is for research use only and not for use in

diagnostic or therapeutic procedures.

### **Protein Information**

Name Cacng8 {ECO:0000312 | MGI:MGI:1932376}

**Function** Regulates the activity of L-type calcium channels that contain CACNA1C as

pore-forming subunit (PubMed:<u>21127204</u>). Regulates the trafficking and gating properties of AMPA-selective glutamate receptors (AMPARs). Promotes their targeting to the cell membrane and synapses and modulates their gating

properties by slowing their rates of activation, deactivation and

desensitization and by mediating their resensitization. Does not show subunit-specific AMPA receptor regulation and regulates all AMPAR subunits. Thought to stabilize the calcium channel in an inactivated (closed) state.

**Cellular Location** Cell membrane; Multi-pass membrane protein. Postsynaptic density

membrane
