

# DLX1 antibody - N-terminal region

Rabbit Polyclonal Antibody Catalog # AI11661

#### **Product Information**

Application WB Primary Accession P56177

Other Accession <u>NM 178120, NP 835221</u>

**Reactivity** Human, Mouse, Rat, Rabbit, Zebrafish, Pig, Dog, Horse, Bovine

**Predicted** Mouse, Rat, Zebrafish, Chicken, Bovine

Host Rabbit
Clonality Polyclonal
Calculated MW 27320

#### **Additional Information**

**Gene ID** 1745

Other Names Homeobox protein DLX-1, DLX1

Format Liquid. Purified antibody supplied in 1x PBS buffer with 0.09% (w/v) sodium

azide and 2% sucrose.

**Reconstitution & Storage** Add 50 ul of distilled water. Final anti-DLX1 antibody concentration is 1 mg/ml

in PBS buffer with 2% sucrose. For longer periods of storage, store at 20°C.

Avoid repeat freeze-thaw cycles.

**Precautions** DLX1 antibody - N-terminal region is for research use only and not for use in

diagnostic or therapeutic procedures.

#### **Protein Information**

Name DLX1

**Function** Plays a role as a transcriptional activator or repressor (PubMed: <u>14671321</u>).

Inhibits several cytokine signaling pathways, such as TGFB1, activin-A/INHBA and BMP4 by interfering with the transcriptional stimulatory activity of transcription factors, such as MSX2, FAST2, SMAD2 and SMAD3 during beneatopoietic cell differentiation (PubMed:14671321). Plays a role in terminal

hematopoietic cell differentiation (PubMed:<u>14671321</u>). Plays a role in terminal differentiation of interneurons, such as amacrine and bipolar cells in the developing retina (By similarity). Likely to play a regulatory role in the development of the ventral forebrain (By similarity). May play a role in craniofacial patterning and morphogenesis and may be involved in the early

development of diencephalic subdivisions (By similarity).

Cellular Location Nucleus.
