

# Fank1 Antibody - N-terminal region

Rabbit Polyclonal Antibody

Catalog # AI13290

## Product Information

---

|                   |                                                                |
|-------------------|----------------------------------------------------------------|
| Application       | WB                                                             |
| Primary Accession | <a href="#">Q66H07</a>                                         |
| Other Accession   | <a href="#">NM_001008347</a> , <a href="#">NP_001008348</a>    |
| Reactivity        | Human, Mouse, Rat, Rabbit, Pig, Dog, Guinea Pig, Horse, Bovine |
| Predicted         | Human, Mouse, Rat, Rabbit, Pig, Dog, Guinea Pig, Horse, Bovine |
| Host              | Rabbit                                                         |
| Clonality         | Polyclonal                                                     |
| Calculated MW     | 38411                                                          |

## Additional Information

---

|                          |                                                                                                                                                                                                |
|--------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Gene ID                  | 309071                                                                                                                                                                                         |
| Other Names              | Fibronectin type 3 and ankyrin repeat domains 1 protein, Fank1                                                                                                                                 |
| Format                   | Liquid. Purified antibody supplied in 1x PBS buffer with 0.09% (w/v) sodium azide and 2% sucrose.                                                                                              |
| Reconstitution & Storage | Add 50 ul of distilled water. Final anti-Fank1 antibody concentration is 1 mg/ml in PBS buffer with 2% sucrose. For longer periods of storage, store at 20°C. Avoid repeat freeze-thaw cycles. |
| Precautions              | Fank1 Antibody - N-terminal region is for research use only and not for use in diagnostic or therapeutic procedures.                                                                           |

## Protein Information

---

|                   |                                                                                                                                                                                                                              |
|-------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Name              | Fank1 {ECO:0000312 RGD:1304756}                                                                                                                                                                                              |
| Function          | Through the activation of JUN and AP-1-mediated transcription, may regulate apoptosis.                                                                                                                                       |
| Cellular Location | Nucleus {ECO:0000250 UniProtKB:Q8TC84}. Cytoplasm, cytosol {ECO:0000250 UniProtKB:Q8TC84}. Cytoplasm, cytoskeleton, cilium basal body {ECO:0000250 UniProtKB:Q9DAM9}. Cell projection, cilium {ECO:0000250 UniProtKB:Q9DAM9} |

Host: Rabbit  
Target Name: Fank1  
Sample Tissue: Rat pancreas lysates  
Antibody Dilution: 1.0µg/ml

Please note: All products are 'FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC OR THERAPEUTIC PROCEDURES'.
