FAM173B antibody - N-terminal region

Rabbit Polyclonal Antibody
Catalog # AI13562

Product Information

Application	WB
Primary Accession	Q6P4H8
Other Accession	NM_199133, NP_954584
Reactivity	Human
Predicted	Human
Host	Rabbit
Clonality	Polyclonal
Calculated MW	26110

Additional Information

Gene ID	134145
Alias Symbol	FLJ20667
Other Names	Protein FAM173B, FAM173B
Format	Liquid. Purified antibody supplied in 1x PBS buffer with 0.09% (w/v) sodium azide and 2% sucrose.
Reconstitution & Storage	Add 50 ul of distilled water. Final anti-FAM173B antibody concentration is 1 mg/ml in PBS buffer with 2% sucrose. For longer periods of storage, store at 20°C. Avoid repeat freeze-thaw cycles.
Precautions	FAM173B antibody - N-terminal region is for research use only and not for use in diagnostic or therapeutic procedures.

Protein Information

Name	ATPSCKMT (HGNC:27029)
Function	Mitochondrial protein-lysine N-methyltransferase that trimethylates ATP synthase subunit C, ATP5MC1 and ATP5MC2. Trimethylation is required for proper incorporation of the C subunit into the ATP synthase complex and mitochondrial respiration (PubMed:29444090, PubMed:30530489). Promotes chronic pain (PubMed:29444090). Involved in persistent inflammatory and neuropathic pain: methyltransferase activity in the mitochondria of sensory neurons promotes chronic pain via a pathway that depends on the production of reactive oxygen species (ROS) and on the engagement of spinal cord microglia (PubMed:29444090).
Cellular Location	Mitochondrion membrane; Single-pass membrane protein. Note=Localizes to

mitochondrial cristae.

**Tissue Location**   Ubiquitously expressed.
