

Anti-PIGR Antibody (Cytoplasmic Domain)

Rabbit Anti Human Polyclonal Antibody Catalog # ALS17682

Product Information

Application IHC-P **Primary Accession** P01833

Predicted Human, Monkey

HostRabbitClonalityPolyclonalCalculated MW83284Concentration (mg/ml)1 mg/ml

Additional Information

Gene ID 5284

Alias Symbol PIGR

Other Names PIGR, Poly-Ig receptor

Target/Specificity Human PIGR. BLAST analysis of the peptide immunogen showed no homology

with other human proteins.

Reconstitution & Storage Immunoaffinity purified

Precautions Anti-PIGR Antibody (Cytoplasmic Domain) is for research use only and not for

use in diagnostic or therapeutic procedures.

Protein Information

Name PIGR

Function [Polymeric immunoglobulin receptor]: Mediates selective transcytosis of

polymeric IgA and IgM across mucosal epithelial cells. Binds polymeric IgA and IgM at the basolateral surface of epithelial cells. The complex is then transported across the cell to be secreted at the apical surface. During this process, a cleavage occurs that separates the extracellular (known as the

secretory component) from the transmembrane segment.

Cellular Location [Polymeric immunoglobulin receptor]: Cell membrane; Single-pass type I

membrane protein

Please note: All products are 'FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC OR THERAPEUTIC PROCEDURES'.
