

Anti-Alpha Synuclein (Ser129) Antibody

Our Anti-Alpha Synuclein (Ser129) rabbit polyclonal phosphospecific primary antibody from PhosphoSol
Catalog # AN1309

Product Information

Application	WB, IHC
Primary Accession	P37377
Host	Rabbit
Clonality	Polyclonal
Isotype	IgG
Calculated MW	14515

Additional Information

Gene ID	29219
Other Names	Alpha synuclein antibody, Alpha-synuclein antibody, Alpha-synuclein, isoform NACP140 antibody, alphaSYN antibody, MGC105443 antibody, MGC110988 antibody, MGC127560 antibody, MGC64356 antibody, NACP antibody, Non A beta component of AD amyloid antibody, Non A4 component of amyloid antibody, Non A4 component of amyloid precursor antibody, Non-A beta component of AD amyloid antibody, Non-A-beta component of alzheimers disease amyloid , precursor of antibody, Non-A4 component of amyloid precursor antibody, Non-A4 component of amyloid, precursor of antibody, OTTHUMP00000218549 antibody, OTTHUMP00000218551 antibody, OTTHUMP00000218552 antibody, OTTHUMP00000218553 antibody, OTTHUMP00000218554 antibody, PARK 1 antibody, PARK 4 antibody, PARK1 antibody, PARK4 antibody, Parkinson disease (autosomal dominant Lewy body) 4 antibody, Parkinson disease familial 1 antibody, SNCA antibody, Snca synuclein alpha (non A4 component of amyloid precursor) antibody, SYN antibody, Synuclein alpha antibody, Synuclein alpha 140 antibody, Synuclein alpha (non A4 component of amyloid precursor) antibody, SYUA_HUMAN antibody

Target/Specificity	Alpha-synuclein is a presynaptic neuronal protein that is thought to be involved in the formation of SNARE complexes. Most significantly, aggregated alphasynuclein is one of the major components found in the Lewy bodies that occur in Parkinson's disease (PD) and other neurodegenerative disorders (Okochi et al., 2000). Mutation of the alpha-synuclein gene is associated with familial forms of PD (Newmann et al., 2002). Recent evidence suggests that phosphorylation of alpha-synuclein at Ser129 plays a role in the formation of inclusions in PD (Smith et al., 2005; Masliah et al., 2005).
--------------------	---

Dilution	WB~~1:1000 IHC~~1:100~500
Format	Antigen Affinity Purified from Pooled Serum
Storage	Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store

at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

Anti-Alpha Synuclein (Ser129) Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

Shipping

Blue Ice

Background

Alpha-synuclein is a presynaptic neuronal protein that is thought to be involved in the formation of SNARE complexes. Most significantly, aggregated alphasynuclein is one of the major components found in the Lewy bodies that occur in Parkinson's disease (PD) and other neurodegenerative disorders (Okochi et al., 2000). Mutation of the alpha-synuclein gene is associated with familial forms of PD (Newmann et al., 2002). Recent evidence suggests that phosphorylation of alpha-synuclein at Ser129 plays a role in the formation of inclusions in PD (Smith et al., 2005; Masliah et al., 2005).

Images

Western blot of rat cortical lysate showing specific immunolabeling of the ~15 kDa alpha synuclein protein phosphorylated at Ser129 in the first lane (-). Phosphospecificity is shown in the second lane (+) where the immunolabeling is blocked by the phosphopeptide used as antigen but not by the corresponding non-phosphopeptide (not shown).

Please note: All products are 'FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC OR THERAPEUTIC PROCEDURES'.
