

ETS1 Antibody

Mouse Monoclonal Antibody to ETS1

Catalog # AO1354b

Product Information

Application	WB, IHC, E
Primary Accession	P14921
Reactivity	Human
Host	Mouse
Clonality	Monoclonal
Clone Names	10D2
Isotype	Mouse IgG1
Calculated MW	50408
Description	The ETS1 is a transcription factor known to regulate expression of a number of genes involved in extracellular matrix remodeling. ETS1 is absent from normal gastric epithelium but is expressed in approximately 60% of gastric carcinomas and oral squamous cell carcinomas with a significant correlation to the tumor stage.
Immunogen	Purified recombinant fragment of human ETS1 expressed in E. Coli.

Additional Information

Gene ID	2113
Other Names	Protein C-ets-1, p54, ETS1, EWSR2
Target/Specificity	Purified recombinant fragment of human ETS1 expressed in E. Coli.
Dilution	WB~~1:500~~2000 IHC~~1:200~~1000 E~~N/A
Format	Ascitic fluid containing 0.03% sodium azide.
Storage	Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.
Precautions	ETS1 Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

Protein Information

Name	ETS1
Synonyms	EWSR2

Function	Transcription factor (PubMed: 10698492 , PubMed: 11909962). Directly controls the expression of cytokine and chemokine genes in a wide variety of different cellular contexts (PubMed: 20378371). May control the differentiation, survival and proliferation of lymphoid cells (PubMed: 20378371). May also regulate angiogenesis through regulation of expression of genes controlling endothelial cell migration and invasion (PubMed: 15247905 , PubMed: 15592518).
Cellular Location	Nucleus. Cytoplasm Note=Delocalizes from nucleus to cytoplasm when coexpressed with isoform Ets-1 p27.
Tissue Location	Highly expressed within lymphoid cells. Isoforms c- ETS-1A and Ets-1 p27 are both detected in all fetal tissues tested, but vary with tissue type in adult tissues. None is detected in brain or kidney.
