KLF4 Antibody

Purified Mouse Monoclonal Antibody Catalog # AO1434a

Product Information

ApplicationWB, IHC, EPrimary AccessionO43474ReactivityHumanHostMouseClonalityMonoclonal

Clone Names 1E5 Isotype IgG1 Calculated MW 54671

Description Kruppel-like factor 4 (gut), endothelial Kruppel-like zinc finger protein. May act

as a transcriptional activator. Binds the CACCC core sequence. May be involved in the differentiation of epithelial cells and may also function in the development of the skeleton and kidney. KLF4 is highly expressed in the

epithelial cells of the skin and the gastrointestinal tract.

Immunogen Purified recombinant fragment of human KLF4 (AA: 2-470) expressed in E.

Coli.

Formulation Ascitic fluid containing 0.03% sodium azide.

Additional Information

Gene ID 9314

Other Names Krueppel-like factor 4, Epithelial zinc finger protein EZF, Gut-enriched

krueppel-like factor, KLF4, EZF, GKLF

Dilution WB~~1/500 - 1/2000 IHC~~1/200 - 1/1000 E~~N/A

Storage Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store

at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions KLF4 Antibody is for research use only and not for use in diagnostic or

therapeutic procedures.

Protein Information

Name KLF4 (HGNC:6348)

Synonyms EZF, GKLF

Function Transcription factor; can act both as activator and as repressor. Binds the

5'-CACCC-3' core sequence. Binds to the promoter region of its own gene and

can activate its own transcription. Regulates the expression of key

transcription factors during embryonic development. Plays an important role in maintaining embryonic stem cells, and in preventing their differentiation. Required for establishing the barrier function of the skin and for postnatal

maturation and maintenance of the ocular surface. Involved in the

differentiation of epithelial cells and may also function in skeletal and kidney development. Contributes to the down-regulation of p53/TP53 transcription.

Cellular Location Nucleus {ECO:0000250 | UniProtKB:Q60793}. Cytoplasm

{ECO:0000250 | UniProtKB:Q60793}
