

CHRD Antibody (N-term)

Affinity Purified Rabbit Polyclonal Antibody (Pab) Catalog # AP1416a

Product Information

Application WB, IHC-P, E **Primary Accession Q9H2X0** Reactivity Human Host Rabbit Clonality Polyclonal Isotype Rabbit IgG **Clone Names** RB14094 **Calculated MW** 102032 **Antigen Region** 137-167

Additional Information

Gene ID 8646

Other Names Chordin, CHRD

Target/Specificity This CHRD antibody is generated from rabbits immunized with a KLH

conjugated synthetic peptide between 137-167 amino acids from the

N-terminal region of human CHRD.

Dilution WB~~1:1000 IHC-P~~1:100~500 E~~Use at an assay dependent concentration.

Format Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide.

This antibody is prepared by Saturated Ammonium Sulfate (SAS) precipitation

followed by dialysis against PBS.

Storage Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store

at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions CHRD Antibody (N-term) is for research use only and not for use in diagnostic

or therapeutic procedures.

Protein Information

Name CHRD

Function Dorsalizing factor. Key developmental protein that dorsalizes early

vertebrate embryonic tissues by binding to ventralizing TGF-beta family bone morphogenetic proteins (BMPs) and sequestering them in latent complexes

(By similarity).

Cellular Location Secreted.

Tissue Location Expressed at the highest level in liver.

Background

CHRD is a secreted protein that dorsalizes early vertebrate embryonic tissues by binding to ventralizing TGF-beta-like bone morphogenetic proteins and sequestering them in latent complexes. This protein may also have roles in organogenesis and during adulthood.
