

ARRDC1 Antibody (Center)

Affinity Purified Rabbit Polyclonal Antibody (Pab) Catalog # AP16008c

Product Information

Application WB, E **Primary Accession Q8N5I2 Other Accession** NP 689498.1 Reactivity Mouse Host Rabbit Clonality Polyclonal Isotype Rabbit IgG **Clone Names** RB27192 **Calculated MW** 45981 136-164 **Antigen Region**

Additional Information

Gene ID 92714

Other Names Arrestin domain-containing protein 1, ARRDC1

Target/Specificity This ARRDC1 antibody is generated from rabbits immunized with a KLH

conjugated synthetic peptide between 136-164 amino acids from the Central

region of human ARRDC1.

Dilution WB~~1:1000 E~~Use at an assay dependent concentration.

Format Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide.

This antibody is purified through a protein A column, followed by peptide

affinity purification.

Storage Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store

at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions ARRDC1 Antibody (Center) is for research use only and not for use in

diagnostic or therapeutic procedures.

Protein Information

Name ARRDC1 (HGNC:28633)

Function Functions as an adapter recruiting ubiquitin-protein ligases to their specific

substrates (PubMed: <u>23886940</u>, PubMed: <u>27462458</u>). Through an ubiquitination-dependent mechanism plays for instance a role in the incorporation of SLC11A2 into extracellular vesicles (PubMed: <u>27462458</u>).

More generally, plays a role in the extracellular transport of proteins between cells through the release in the extracellular space of microvesicles (PubMed:22315426). By participating in the ITCH-mediated ubiquitination and subsequent degradation of NOTCH1, negatively regulates the NOTCH signaling pathway (PubMed:23886940).

Cellular Location

Cell membrane. Note=Also found in extracellular vesicles different from exosomes.

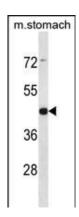

Background

ARRDC1 belongs to the arrestin family of proteins.
