

GPR87 Antibody (C-term)

Affinity Purified Rabbit Polyclonal Antibody (Pab) Catalog # AP16621b

Product Information

Application	WB, E
Primary Accession	<u>Q9BY21</u>
Other Accession	<u>Q99MT7, NP_076404.3</u>
Reactivity	Human
Predicted	Mouse
Host	Rabbit
Clonality	Polyclonal
Isotype	Rabbit IgG
Clone Names	RB36091
Calculated MW	41436
Antigen Region	329-357

Additional Information

Gene ID	53836
Other Names	G-protein coupled receptor 87, G-protein coupled receptor 95, GPR87, GPR95
Target/Specificity	This GPR87 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 329-357 amino acids from the C-terminal region of human GPR87.
Dilution	WB~~1:1000 E~~Use at an assay dependent concentration.
Format	Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.
Storage	Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.
Precautions	GPR87 Antibody (C-term) is for research use only and not for use in diagnostic or therapeutic procedures.

Protein Information

Name	GPR87
Synonyms	GPR95
Function	Receptor for lysophosphatidic acid (LPA) (PubMed: <u>17905198</u>). Necessary for

	p53/TP53-dependent survival in response to DNA damage (PubMed: <u>19602589</u>). Promotes the Hippo-YAP signaling pathway and thereby modulates glycolysis and oxidative stress production by the regulation of hexokinase-2/HK2 (PubMed: <u>35843477</u>).
Cellular Location	Cell membrane; Multi-pass membrane protein
Tissue Location	Expressed in placenta and prostate. Weaker expression in thymus. Not expressed in thalamus, hippocampus, pons or cerebellum. Overexpressed in squamous cell carcinoma of the lung

Background

G protein-coupled receptors play a role in cell communication. They are characterized by an extracellular N terminus, 7 transmembrane regions, and an intracellular C terminus.
