

LASS6 Antibody (C-term)

Affinity Purified Rabbit Polyclonal Antibody (Pab)

Catalog # AP17693B

Product Information

Application	WB, E
Primary Accession	Q6ZMG9
Other Accession	NP_982288.1
Reactivity	Mouse, Rat, Human
Host	Rabbit
Clonality	Polyclonal
Isotype	Rabbit IgG
Clone Names	RB37704
Calculated MW	44890
Antigen Region	335-361

Additional Information

Gene ID	253782
Other Names	Ceramide synthase 6, CerS6, LAG1 longevity assurance homolog 6, CERS6, LASS6
Target/Specificity	This LASS6 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 335-361 amino acids from the C-terminal region of human LASS6.
Dilution	WB~~1:1000 E~~Use at an assay dependent concentration.
Format	Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.
Storage	Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.
Precautions	LASS6 Antibody (C-term) is for research use only and not for use in diagnostic or therapeutic procedures.

Protein Information

Name	CERS6 (HGNC:23826)
Function	Ceramide synthase that catalyzes the transfer of the acyl chain from acyl-CoA to a sphingoid base, with high selectivity toward palmitoyl-CoA (hexadecanoyl-CoA; C16:0-CoA) (PubMed: 17609214 , PubMed: 17977534 ,

PubMed:[23530041](#), PubMed:[26887952](#), PubMed:[31916624](#)). Can use other acyl donors, but with less efficiency (By similarity). N- acylates sphinganine and sphingosine bases to form dihydroceramides and ceramides in de novo synthesis and salvage pathways, respectively (PubMed:[17977534](#), PubMed:[23530041](#), PubMed:[26887952](#), PubMed:[31916624](#)). Ceramides generated by CERS6 play a role in inflammatory response (By similarity). Acts as a regulator of metabolism and hepatic lipid accumulation (By similarity). Under high fat diet, palmitoyl- (C16:0-) ceramides generated by CERS6 specifically bind the mitochondrial fission factor MFF, thereby promoting mitochondrial fragmentation and contributing to the development of obesity (By similarity).

Cellular Location

Endoplasmic reticulum membrane {ECO:0000250 | UniProtKB:Q8C172};
Multi-pass membrane protein {ECO:0000250 | UniProtKB:Q8C172}

Background

LASS6 may be involved in sphingolipid synthesis or its regulation (By similarity).
