

# ZNF212 Antibody (N-term)

Affinity Purified Rabbit Polyclonal Antibody (Pab)

Catalog # AP18653a

## Product Information

---

|                   |                               |
|-------------------|-------------------------------|
| Application       | WB, E                         |
| Primary Accession | <a href="#">Q9UDV6</a>        |
| Other Accession   | <a href="#">NP_036388.2</a>   |
| Reactivity        | Human                         |
| Predicted         | Mouse, Bovine, Canine, Rabbit |
| Host              | Rabbit                        |
| Clonality         | Polyclonal                    |
| Isotype           | Rabbit IgG                    |
| Clone Names       | RB37375                       |
| Calculated MW     | 55447                         |
| Antigen Region    | 118-146                       |

## Additional Information

---

|                    |                                                                                                                                                                              |
|--------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Gene ID            | 7988                                                                                                                                                                         |
| Other Names        | Zinc finger protein 212, Zinc finger protein C2H2-150, ZNF212, ZNFC150                                                                                                       |
| Target/Specificity | This ZNF212 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 118-146 amino acids from the N-terminal region of human ZNF212.     |
| Dilution           | WB~~1:1000 E~~Use at an assay dependent concentration.                                                                                                                       |
| Format             | Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification. |
| Storage            | Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.                                      |
| Precautions        | ZNF212 Antibody (N-term) is for research use only and not for use in diagnostic or therapeutic procedures.                                                                   |

## Protein Information

---

|          |                                                |
|----------|------------------------------------------------|
| Name     | ZNF212                                         |
| Synonyms | ZNFC150                                        |
| Function | May be involved in transcriptional regulation. |

## Background

---

This gene belongs to the C2H2-type zinc finger gene family. The zinc finger proteins are involved in gene regulation and development, and are quite conserved throughout evolution. Like this gene product, a third of the zinc finger proteins containing C2H2 fingers also contain the KRAB domain, which has been found to be involved in protein-protein interactions.
