

# ZNF883 Antibody (Center)

Affinity Purified Rabbit Polyclonal Antibody (Pab)

Catalog # AP19302c

## Product Information

---

|                   |                                |
|-------------------|--------------------------------|
| Application       | WB, E                          |
| Primary Accession | <a href="#">P0CG24</a>         |
| Other Accession   | <a href="#">NP_001094808.1</a> |
| Reactivity        | Human                          |
| Host              | Rabbit                         |
| Clonality         | Polyclonal                     |
| Isotype           | Rabbit IgG                     |
| Clone Names       | RB39989                        |
| Calculated MW     | 43967                          |
| Antigen Region    | 155-181                        |

## Additional Information

---

|                    |                                                                                                                                                                                          |
|--------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Gene ID            | 169834                                                                                                                                                                                   |
| Other Names        | Zinc finger protein 883, ZNF883                                                                                                                                                          |
| Target/Specificity | This ZNF883 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 155-181 amino acids from the Central region of human ZNF883.                    |
| Dilution           | WB~~1:1000 E~~Use at an assay dependent concentration.                                                                                                                                   |
| Format             | Purified polyclonal antibody supplied in PBS with 0.05% (V/V) Proclin 300. This antibody is prepared by Saturated Ammonium Sulfate (SAS) precipitation followed by dialysis against PBS. |
| Storage            | Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.                                                  |
| Precautions        | ZNF883 Antibody (Center) is for research use only and not for use in diagnostic or therapeutic procedures.                                                                               |

## Protein Information

---

|                   |                                                |
|-------------------|------------------------------------------------|
| Name              | ZNF883                                         |
| Function          | May be involved in transcriptional regulation. |
| Cellular Location | Nucleus.                                       |

## Background

---

ZNF883 may be involved in transcriptional regulation (By similarity).
