

PLAA Antibody (Center)

Purified Rabbit Polyclonal Antibody (Pab) Catalog # AP22224c

Product Information

Application WB, E Primary Accession Q9Y263

Reactivity Human, Rat, Mouse

HostRabbitClonalitypolyclonalIsotypeRabbit IgGClone NamesRB56657Calculated MW87157

Additional Information

Gene ID 9373

Other Names Phospholipase A-2-activating protein, PLA2P, PLAP, PLAP, PLAP

Target/Specificity This PLAA antibody is generated from a rabbit immunized with a KLH

conjugated synthetic peptide between 294-328 amino acids from the Central

region of human PLAA.

Dilution WB~~1:2000 E~~Use at an assay dependent concentration.

Format Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide.

This antibody is purified through a protein A column, followed by peptide

affinity purification.

Storage Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store

at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions PLAA Antibody (Center) is for research use only and not for use in diagnostic

or therapeutic procedures.

Protein Information

Name PLAA

Synonyms PLAP

Function Plays a role in protein ubiquitination, sorting and degradation through its

association with VCP (PubMed: <u>27753622</u>). Involved in ubiquitin-mediated membrane proteins trafficking to late endosomes in an ESCRT-dependent manner, and hence plays a role in synaptic vesicle recycling (By similarity).

May play a role in macroautophagy, regulating for instance the clearance of damaged lysosomes (PubMed:<u>27753622</u>). Plays a role in cerebellar Purkinje cell development (By similarity). Positively regulates cytosolic and calcium-independent phospholipase A2 activities in a tumor necrosis factor alpha (TNF-alpha)- or lipopolysaccharide (LPS)-dependent manner, and hence prostaglandin E2 biosynthesis (PubMed:<u>18291623</u>, PubMed:<u>28007986</u>).

Cellular Location

Nucleus. Cytoplasm. Synapse {ECO:0000250 | UniProtKB:P27612}. Note=Recruited to damaged lysosomes decorated with K48-linked ubiquitin chains

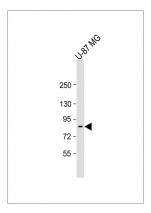

Background

Involved in the maintenance of ubiquitin levels.
