

# ALDOB Antibody

Purified Rabbit Polyclonal Antibody (Pab)

Catalog # AP50637

## Product Information

Application	WB
Primary Accession	<a href="#">P05062</a>
Reactivity	Human, Mouse, Rat
Host	Rabbit
Clonality	polyclonal
Calculated MW	39473

## Additional Information

Gene ID	229
Other Names	Fructose-bisphosphate aldolase B, Liver-type aldolase, ALDOB, ALDB
Dilution	WB~~1:1000
Format	Rabbit IgG in phosphate buffered saline (without Mg <sup>2+</sup> and Ca <sup>2+</sup> ), pH 7.4, 150mM NaCl, 0.09% (W/V) sodium azide and 50% glycerol.
Storage Conditions	-20°C

## Protein Information

Name	ALDOB {ECO:0000303   PubMed:15880727, ECO:0000312   HGNC:HGNC:417}
Function	Catalyzes the aldol cleavage of fructose 1,6-biphosphate to form two triosephosphates dihydroxyacetone phosphate and D- glyceraldehyde 3-phosphate in glycolysis as well as the reverse stereospecific aldol addition reaction in gluconeogenesis. In fructolysis, metabolizes fructose 1-phosphate derived from the phosphorylation of dietary fructose by fructokinase into dihydroxyacetone phosphate and D-glyceraldehyde (PubMed: <a href="#">10970798</a> , PubMed: <a href="#">12205126</a> , PubMed: <a href="#">20848650</a> ). Acts as an adapter independently of its enzymatic activity, exerts a tumor suppressor role by stabilizing the ternary complex with G6PD and TP53 to inhibit G6PD activity and keep oxidative pentose phosphate metabolism in check (PubMed: <a href="#">35122041</a> ).
Cellular Location	Cytoplasm, cytosol. Cytoplasm, cytoskeleton, microtubule organizing center, centrosome, centriolar satellite

---

Western blot analysis of lysates from human kidney and liver tissue lysate(from left to right),using ALDOB Antibody(AP50637). AP50637 was diluted at 1:1000 at each lane. A goat anti-rabbit IgG H&L(HRP) at 1:5000 dilution was used as the secondary antibody.Lysates at 35ug per lane.
