

FGF13 Antibody

Purified Rabbit Polyclonal Antibody (Pab) Catalog # AP50639

Product Information

Application WB Primary Accession Q92913

Reactivity Human, Mouse, Rat

HostRabbitClonalitypolyclonalCalculated MW27564

Additional Information

Gene ID 2258

Other Names Fibroblast growth factor 13, FGF-13, Fibroblast growth factor homologous

factor 2, FHF-2, FGF13, FHF2

Dilution WB~~1:1000

Format Rabbit IgG in phosphate buffered saline (without Mg2+ and Ca2+), pH 7.4,

150mM NaCl, 0.09% (W/V) sodium azide and 50% glycerol.

Storage Conditions -20°C

Protein Information

Name FGF13 (HGNC:3670)

Synonyms FHF2

Function Microtubule-binding protein which directly binds tubulin and is involved in

both polymerization and stabilization of microtubules (By similarity). Through its action on microtubules, may participate in the refinement of axons by negatively regulating axonal and leading processes branching (By similarity). Plays a crucial role in neuron polarization and migration in the cerebral cortex and the hippocampus (By similarity). Regulates voltage-gated sodium channel

transport and function (PubMed: 15282281, PubMed: 33245860,

PubMed:<u>36696443</u>). May also play a role in MAPK signaling (By similarity). Required for the development of axonal initial segment-targeting inhibitory

GABAergic synapses made by chandelier neurons (By similarity).

Cellular Location [Isoform 1]: Nucleus [Isoform 3]: Cytoplasm. Nucleus [Isoform 5]: Cytoplasm

Images

Western blot analysis of lysate from human heart tissue lysate, using FGF13 Antibody(AP50639). AP50639 was diluted at 1:1000. A goat anti-rabbit IgG H&L(HRP) at 1:5000 dilution was used as the secondary antibody. Lysate at 35 ug.
