Apolipoprotein C2 Antibody

Purified Rabbit Polyclonal Antibody (Pab) Catalog # AP51924

Product Information

Application WB Primary Accession P02655

Reactivity Human, Mouse, Rat

HostRabbitClonalityPolyclonalCalculated MW11284

Additional Information

Gene ID 344

Other Names Apolipoprotein C-II, Apo-CII, ApoC-II, Apolipoprotein C2, Proapolipoprotein

C-II, ProapoC-II, APOC2, APC2

Dilution WB~~1:1000

Format 0.01M PBS, pH 7.2, 0.09% (W/V) Sodium azide, Glycerol 50%

Storage Store at -20 °C.Stable for 12 months from date of receipt

Protein Information

Name APOC2

Synonyms APC2

Function Component of chylomicrons, very low-density lipoproteins (VLDL),

low-density lipoproteins (LDL), and high-density lipoproteins (HDL) in plasma. Plays an important role in lipoprotein metabolism as an activator of

lipoprotein lipase. Both proapolipoprotein C-II and apolipoprotein C-II can activate lipoprotein lipase. In normolipidemic individuals, it is mainly distributed in the HDL, whereas in hypertriglyceridemic individuals,

predominantly found in the VLDL and LDL.

Cellular Location Secreted.

Tissue Location Liver and intestine..

Background

Component of the very low density lipoprotein (VLDL) fraction in plasma, and is an activator of several triacylglycerol lipases. The association of APOC2 with plasma chylomicrons, VLDL, and HDL is reversible, a function of the secretion and catabolism of triglyceride-rich lipoproteins, and changes rapidly.
