

# TMEM192 Rabbit pAb

Catalog # AP53620

## Product Information

|                   |                        |
|-------------------|------------------------|
| Primary Accession | <a href="#">Q8IY95</a> |
| Host              | Rabbit                 |
| Clonality         | Polyclonal Antibody    |
| Calculated MW     | 30922                  |

## Additional Information

|             |                                                                                          |
|-------------|------------------------------------------------------------------------------------------|
| Gene ID     | 201931                                                                                   |
| Other Names | Transmembrane protein 192, TMEM192                                                       |
| Storage     | Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze/thaw cycles. |

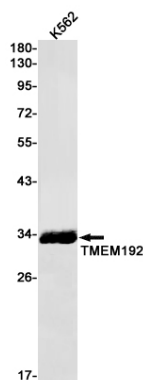

## Protein Information

|                   |                                                               |
|-------------------|---------------------------------------------------------------|
| Name              | TMEM192                                                       |
| Cellular Location | Lysosome membrane; Multi-pass membrane protein. Late endosome |
| Tissue Location   | Strongly expressed in kidney, liver, lung and pancreas.       |

## Background

Swiss-Prot Acc.Q8IY95.Transmembrane protein 192

## Images

Western blot detection of TMEM192 in K562 cell lysates using TMEM192 Rabbit pAb(1:1000 diluted). Predicted band size:31kDa.Observed band size:31kDa.

Please note: All products are 'FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC OR THERAPEUTIC PROCEDURES'.
