

# Anti-KLHL29 Antibody

Catalog # AP53854

## Product Information

---

|                   |                        |
|-------------------|------------------------|
| Application       | WB, IHC                |
| Primary Accession | <a href="#">Q96CT2</a> |
| Reactivity        | Human, Mouse, Rat      |
| Host              | Rabbit                 |
| Clonality         | Polyclonal             |
| Calculated MW     | 94228                  |

## Additional Information

---

|                    |                                                                                                                                       |
|--------------------|---------------------------------------------------------------------------------------------------------------------------------------|
| Gene ID            | 114818                                                                                                                                |
| Other Names        | KBTBD9; KIAA1921; Kelch-like protein 29; Kelch repeat and BTB domain-containing protein 9                                             |
| Target/Specificity | KLH-conjugated synthetic peptide encompassing a sequence within the center region of human KLHL29. The exact sequence is proprietary. |
| Dilution           | WB~~1/500 - 1/1000 IHC~~1/50 - 1/200                                                                                                  |
| Format             | Liquid in 0.42% Potassium phosphate, 0.87% Sodium chloride, pH 7.3, 30% glycerol, and 0.01% sodium azide.                             |
| Storage            | Store at -20 °C.Stable for 12 months from date of receipt                                                                             |

## Protein Information

---

|          |                  |
|----------|------------------|
| Name     | KLHL29           |
| Synonyms | KBTBD9, KIAA1921 |

## Images

---

Western blot analysis of KLHL29 expression in CT26 (A), C6 (B), LO2 (C), A375 (D), HCT116 (E) whole cell lysates. (Predicted band size: 94 kD; Observed band size: 94 kD)

Immunohistochemical analysis of KLHL29 staining in human breast cancer formalin fixed paraffin embedded tissue section. The section was pre-treated using heat mediated antigen retrieval with sodium citrate buffer (pH 6.0). The section was then incubated with the antibody at room temperature and detected using an HRP conjugated compact polymer system. DAB was used as the chromogen. The section was then counterstained with haematoxylin and mounted with DPX.
