

# Anti-MYPT3 Antibody

Catalog # AP53972

## Product Information

---

|                   |                        |
|-------------------|------------------------|
| Application       | WB, IHC, IF/IC         |
| Primary Accession | <a href="#">Q96I34</a> |
| Reactivity        | Human, Mouse, Rat      |
| Host              | Rabbit                 |
| Clonality         | Polyclonal             |
| Calculated MW     | 57811                  |

## Additional Information

---

|                    |                                                                                                                                      |
|--------------------|--------------------------------------------------------------------------------------------------------------------------------------|
| Gene ID            | 84988                                                                                                                                |
| Other Names        | MYPT3; Protein phosphatase 1 regulatory subunit 16A; Myosin phosphatase-targeting subunit 3                                          |
| Target/Specificity | KLH-conjugated synthetic peptide encompassing a sequence within the center region of human MYPT3. The exact sequence is proprietary. |
| Dilution           | WB~~1/500 - 1/1000 IHC~~1:100~500 IF/IC~~N/A                                                                                         |
| Format             | Liquid in 0.42% Potassium phosphate, 0.87% Sodium chloride, pH 7.3, 30% glycerol, and 0.01% sodium azide.                            |
| Storage            | Store at -20 °C.Stable for 12 months from date of receipt                                                                            |

## Protein Information

---

|                   |                                                                                                         |
|-------------------|---------------------------------------------------------------------------------------------------------|
| Name              | PPP1R16A                                                                                                |
| Synonyms          | MYPT3                                                                                                   |
| Function          | Inhibits protein phosphatase 1 activity toward phosphorylase, myosin light chain and myosin substrates. |
| Cellular Location | Cell membrane; Lipid-anchor                                                                             |

## Images

---

Western blot analysis of MYPT3 expression in HEK293T (A), A2780 (B), HCT116 (C), H9C2 (D), CT26 (E) whole cell lysates. (Predicted band size: 57 kD; Observed band size:

50 kD)

Immunohistochemical analysis of MYPT3 staining in human prostate formalin fixed paraffin embedded tissue section. The section was pre-treated using heat mediated antigen retrieval with sodium citrate buffer (pH 6.0). The section was then incubated with the antibody at room temperature and detected using an HRP conjugated compact polymer system. DAB was used as the chromogen. The section was then counterstained with haematoxylin and mounted with DPX.

Immunofluorescent analysis of MYPT3 staining in MCF7 cells. Formalin-fixed cells were permeabilized with 0.1% Triton X-100 in TBS for 5-10 minutes and blocked with 3% BSA-PBS for 30 minutes at room temperature. Cells were probed with the primary antibody in 3% BSA-PBS and incubated overnight at 4 °C in a humidified chamber. Cells were washed with PBST and incubated with a AF488-conjugated secondary antibody (green) in PBS at room temperature in the dark. Phalloidin - AF594 was used to stain Actin filaments (red). DAPI was used to stain the cell nuclei (blue).
