Background

Rabbit polyclonal antibody to URB1

Images

Western blot analysis of URB1 expression in Panc1 (A), SGC7901 (B), MCF7 (C) whole cell lysates.

Immunohistochemical analysis of URB1 staining in human brain formalin fixed paraffin embedded tissue section. The section was pre-treated using heat mediated antigen retrieval with sodium citrate buffer (pH 6.0). The section was then incubated with the antibody at room temperature and detected using an HRP conjugated compact polymer system. DAB was used as the chromogen. The section was then counterstained with haematoxylin and mounted with DPX.
