

# ZNF350 Polyclonal Antibody

Purified Rabbit Polyclonal Antibody (Pab)

Catalog # AP54772

## Product Information

---

|                          |                          |
|--------------------------|--------------------------|
| <b>Application</b>       | IHC-P, IHC-F, IF, ICC, E |
| <b>Primary Accession</b> | <a href="#">Q9GZX5</a>   |
| <b>Reactivity</b>        | Human                    |
| <b>Host</b>              | Rabbit                   |
| <b>Clonality</b>         | Polyclonal               |
| <b>Calculated MW</b>     | 60011                    |

## Additional Information

---

|                    |                                                                                                                                                                                                 |
|--------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Gene ID</b>     | 59348                                                                                                                                                                                           |
| <b>Other Names</b> | Zinc finger protein 350, KRAB zinc finger protein ZFQR, Zinc finger and BRCA1-interacting protein with a KRAB domain 1, Zinc finger protein ZBRK1, ZNF350, ZBRK1                                |
| <b>Dilution</b>    | IHC-P=1:100-500,IHC-F=1:100-500,ICC=1:100-500,IF=1:100-500,ELISA=1:5000-10000                                                                                                                   |
| <b>Format</b>      | 0.01M TBS(pH7.4) with 1% BSA, 0.09% (W/V) sodium azide and 50% Glyce                                                                                                                            |
| <b>Storage</b>     | Store at -20 °C for one year. Avoid repeated freeze/thaw cycles. When reconstituted in sterile pH 7.4 0.01M PBS or diluent of antibody the antibody is stable for at least two weeks at 2-4 °C. |

## Protein Information

---

|                          |                                                                                                         |
|--------------------------|---------------------------------------------------------------------------------------------------------|
| <b>Name</b>              | ZNF350                                                                                                  |
| <b>Synonyms</b>          | ZBRK1                                                                                                   |
| <b>Function</b>          | Transcriptional repressor. Binds to a specific sequence, 5'-GGGxxxCAGxxxTTT-3', within GADD45 intron 3. |
| <b>Cellular Location</b> | Nucleus. Nucleus matrix. Note=Associated with the nuclear matrix                                        |
| <b>Tissue Location</b>   | Widely expressed..                                                                                      |

Please note: All products are 'FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC OR THERAPEUTIC PROCEDURES'.
