

C1orf104 Rabbit pAb

C1orf104 Rabbit pAb

Catalog # AP55732

Product Information

Application	WB
Primary Accession	Q66K80
Reactivity	Human
Host	Rabbit
Clonality	Polyclonal
Calculated MW	24494
Physical State	Liquid
Immunogen	KLH conjugated synthetic peptide derived from human C1orf104
Epitope Specificity	21-120/236
Isotype	IgG
Purity	affinity purified by Protein A
Buffer	0.01M TBS (pH7.4) with 1% BSA, 0.02% Proclin300 and 50% Glycerol.
Important Note	This product as supplied is intended for research use only, not for use in human, therapeutic or diagnostic applications.
Background Descriptions	Chromosome 1 is the largest human chromosome spanning about 260 million base pairs and making up 8% of the human genome. There are about 3,000 genes on chromosome 1, and considering the great number of genes there are also a large number of diseases associated with chromosome 1. Notably, the rare aging disease Hutchinson-Gilford progeria is associated with the LMNA gene which encodes lamin A. When defective, the LMNA gene product can build up in the nucleus and cause characteristic nuclear blebs. The mechanism of rapidly enhanced aging is unclear and is a topic of continuing exploration. The MUTYH gene is located on chromosome 1 and is partially responsible for familial adenomatous polyposis. Stickler syndrome, Parkinsons, Gaucher disease and Usher syndrome are also associated with chromosome 1. A breakpoint has been identified in 1q which disrupts the DISC1 gene and is linked to schizophrenia. Aberrations in chromosome 1 are found in a variety of cancers including head and neck cancer, malignant melanoma and multiple myeloma. The C1orf104 gene product has been provisionally designated C1orf104 pending further characterization.

Additional Information

Other Names	Putative uncharacterized protein RUSC1-AS1, RUSC1 antisense RNA 1, RUSC1 antisense gene protein 1, RUSC1-AS1, C1orf104
Dilution	WB=1:500-2000
Storage	Store at -20 °C for one year. Avoid repeated freeze/thaw cycles. When reconstituted in sterile pH 7.4 0.01M PBS or diluent of antibody the antibody is stable for at least two weeks at 2-4 °C.

Protein Information

Name RUSC1-AS1

Synonyms C1orf104

Background

This product as supplied is intended for research use only, not for use in human, therapeutic or diagnostic applications.

Images

Sample: MCF-7 (Human) Cell Lysate at 40 ug
Primary: Anti-C1orf104 (AP55732) at 1/300 dilution
Secondary: IRDye800CW Goat Anti-Rabbit IgG at 1/20000 dilution
Predicted band size: 24kD
Observed band size: 24kD

Please note: All products are 'FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC OR THERAPEUTIC PROCEDURES'.
