

REG3G Antibody (Center)

Affinity Purified Rabbit Polyclonal Antibody (Pab) Catalog # AP5606c

Product Information

Application WB, IHC-P, FC, E

Primary Accession Q6UW15

Other Accession NP_001008388.1
Reactivity Human, Rat, Mouse

Host Rabbit
Clonality Polyclonal
Isotype Rabbit IgG
Calculated MW 19330
Antigen Region 89-116

Additional Information

Gene ID 130120

Other Names Regenerating islet-derived protein 3-gamma, REG-3-gamma,

Pancreatitis-associated protein 1B, PAP-1B, Pancreatitis-associated protein IB, PAP IB, Regenerating islet-derived protein III-gamma, REG III, Reg III-gamma, Regenerating islet-derived protein 3-gamma 165 kDa form, Regenerating

islet-derived protein 3-gamma 15 kDa form, REG3G, PAP1B

Target/Specificity This REG3G antibody is generated from rabbits immunized with a KLH

conjugated synthetic peptide between 89-116 amino acids of human REG3G.

Dilution WB~~1:1000 IHC-P~~1:100~500 FC~~1:10~50 E~~Use at an assay dependent

concentration.

Format Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide.

This antibody is purified through a protein A column, followed by peptide

affinity purification.

Storage Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store

at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions REG3G Antibody (Center) is for research use only and not for use in diagnostic

or therapeutic procedures.

Protein Information

Name REG3G (HGNC:29595)

Synonyms PAP1B

Function Bactericidal C-type lectin which acts exclusively against Gram-positive

bacteria and mediates bacterial killing by binding to surface-exposed

carbohydrate moieties of peptidoglycan. Restricts bacterial colonization of the intestinal epithelial surface and consequently limits activation of adaptive

immune responses by the microbiota.

Cellular Location Secreted {ECO:0000250 | UniProtKB:P42854}. Cytoplasm

{ECO:0000250 | UniProtKB:P42854}

Tissue Location Predominantly expressed in pancreas, where it may be restricted to exocrine

pancreas. Moderate expression levels in testis and weak in heart, kidney and

placenta

Background

REG3G might be a stress protein involved in the control of bacterial proliferation (By similarity).

Anti-REG3G Antibody (Center)at 1:1000 dilution + recombinant protein lysates Lysates/proteins at 20 µg per lane. Secondary Goat Anti-Rabbit IgG, (H+L), Peroxidase conjugated at 1/10000 dilution Predicted band size : 19 kDa Blocking/Dilution buffer: 5% NFDM/TBST.

All lanes: Anti-REG3G Antibody (Center) at 1:100 dilution Lane 1: human kidney lysates Lane 2: human pancreas lysates Lysates/proteins at 20 µg per lane. Secondary Goat Anti-Rabbit IgG, (H+L), Peroxidase conjugated at 1/10000 dilution Predicted band size: 19 kDa Blocking/Dilution buffer: 5% NFDM/TBST.

REG3G Antibody (Center) (Cat. #AP5606c) immunohistochemistry analysis in formalin fixed and paraffin embedded human pancreas tissue followed by peroxidase conjugation of the secondary antibody and DAB staining. This data demonstrates the use of the

REG3G Antibody (Center) for immunohistochemistry. Clinical relevance has not been evaluated.

Abgent antibody neutralizes Reg3 γ binding to S. aureus

Reg3g binds to Staphylococcus aureus and the antibody did block some of this binding(Kindly offered by Dr. Choi).
