

# FNDC7 Polyclonal Antibody

Purified Rabbit Polyclonal Antibody (Pab)

Catalog # AP56158

## Product Information

---

|                   |                        |
|-------------------|------------------------|
| Application       | IHC-P, IHC-F, IF, ICC  |
| Primary Accession | <a href="#">Q5VTL7</a> |
| Reactivity        | Rat, Pig, Dog, Bovine  |
| Host              | Rabbit                 |
| Clonality         | Polyclonal             |
| Calculated MW     | 78236                  |

## Additional Information

---

|             |                                                                                                                                                                                                 |
|-------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Gene ID     | 163479                                                                                                                                                                                          |
| Other Names | Fibronectin type III domain-containing protein 7, FNDC7                                                                                                                                         |
| Dilution    | IHC-P=1:100-500,IHC-F=1:100-500,ICC=1:100-500,IF=1:100-500                                                                                                                                      |
| Storage     | Store at -20 °C for one year. Avoid repeated freeze/thaw cycles. When reconstituted in sterile pH 7.4 0.01M PBS or diluent of antibody the antibody is stable for at least two weeks at 2-4 °C. |

## Protein Information

---

|                   |           |
|-------------------|-----------|
| Name              | FNDC7     |
| Cellular Location | Secreted. |
