

# INO80C Rabbit pAb

INO80C Rabbit pAb

Catalog # AP56352

## Product Information

---

|                                |                                                                                                                                                             |
|--------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Application</b>             | IHC-P, IHC-F, IF                                                                                                                                            |
| <b>Primary Accession</b>       | <a href="#">Q6PI98</a>                                                                                                                                      |
| <b>Predicted</b>               | Rat, Dog, Human, Mouse, Rabbit, Horse, Sheep                                                                                                                |
| <b>Host</b>                    | Rabbit                                                                                                                                                      |
| <b>Clonality</b>               | Polyclonal                                                                                                                                                  |
| <b>Calculated MW</b>           | 20643                                                                                                                                                       |
| <b>Physical State</b>          | Liquid                                                                                                                                                      |
| <b>Immunogen</b>               | KLH conjugated synthetic peptide derived from human INO80C                                                                                                  |
| <b>Epitope Specificity</b>     | 101-200/192                                                                                                                                                 |
| <b>Isotype</b>                 | IgG                                                                                                                                                         |
| <b>Purity</b>                  | affinity purified by Protein A                                                                                                                              |
| <b>Buffer</b>                  | 0.01M TBS (pH7.4) with 1% BSA, 0.02% Proclin300 and 50% Glycerol.                                                                                           |
| <b>SUBCELLULAR LOCATION</b>    | Nuclear                                                                                                                                                     |
| <b>Important Note</b>          | This product as supplied is intended for research use only, not for use in human, therapeutic or diagnostic applications.                                   |
| <b>Background Descriptions</b> | Proposed core component of the chromatin remodeling INO80 complex which is involved in transcriptional regulation, DNA replication and probably DNA repair. |

## Additional Information

---

|                    |                                                                                                                                                                                                 |
|--------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Gene ID</b>     | 125476                                                                                                                                                                                          |
| <b>Other Names</b> | INO80 complex subunit C, IES6 homolog, hIes6, INO80C, C18orf37                                                                                                                                  |
| <b>Dilution</b>    | IHC-P=1:100-500,IHC-F=1:100-500,ICC/IF=1:100-500,IF=1:100-500,ELISA=1:500<br>0-10000                                                                                                            |
| <b>Storage</b>     | Store at -20 °C for one year. Avoid repeated freeze/thaw cycles. When reconstituted in sterile pH 7.4 0.01M PBS or diluent of antibody the antibody is stable for at least two weeks at 2-4 °C. |

## Protein Information

---

|                 |                                                                   |
|-----------------|-------------------------------------------------------------------|
| <b>Name</b>     | INO80C                                                            |
| <b>Synonyms</b> | C18orf37                                                          |
| <b>Function</b> | Proposed core component of the chromatin remodeling INO80 complex |

which is involved in transcriptional regulation, DNA replication and probably DNA repair.

**Cellular Location**

Nucleus.

## **Background**

---

This product as supplied is intended for research use only, not for use in human, therapeutic or diagnostic applications.

Please note: All products are 'FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC OR THERAPEUTIC PROCEDURES'.
