

KIAA1683 Rabbit pAb

KIAA1683 Rabbit pAb
Catalog # AP56517

Product Information

Application	IHC-P, IHC-F, IF
Primary Accession	Q9H0B3
Predicted	Human
Host	Rabbit
Clonality	Polyclonal
Calculated MW	127693
Physical State	Liquid
Immunogen	KLH conjugated synthetic peptide derived from human KIAA1683
Epitope Specificity	551-650/1180
Isotype	IgG
Purity	affinity purified by Protein A
Buffer	0.01M TBS (pH7.4) with 1% BSA, 0.02% Proclin300 and 50% Glycerol.
DISEASE	Contains 6 IQ domains.
Important Note	This product as supplied is intended for research use only, not for use in human, therapeutic or diagnostic applications.
Background Descriptions	KIAA1683 is a 1,180 amino acid protein that contains six IQ domains, exists as three alternatively spliced isoforms, and is encoded by a gene that maps to human chromosome 19p13.11. Consisting of around 63 million bases with over 1,400 genes, chromosome 19 makes up over 2% of human genomic DNA. Chromosome 19 includes a diversity of interesting genes and is recognized for having the greatest gene density of the human chromosomes. It is the genetic home for a number of immunoglobulin superfamily members including the killer cell and leukocyte Ig-like receptors, a number of ICAMs, the CEACAM and PSG families, and Fcα receptors. Key genes for eye color and hair color also map to chromosome 19. Peutz-Jeghers syndrome, spinocerebellar ataxia type 6, the stroke disorder CADASIL, hypercholesterolemia and insulin-dependent diabetes have been linked to chromosome 19. Translocations with chromosome 19 and chromosome 14 can be seen in some lymphoproliferative disorders and typically involve the proto-oncogene BCL3.

Additional Information

Gene ID	80726
Other Names	IQ domain-containing protein N {ECO:0000312 HGNC:HGNC:29350}, IQCN (HGNC:29350), KIAA1683
Dilution	IHC-P=1:100-500,IHC-F=1:100-500,ICC/IF=1:100-500,IF=1:100-500,ELISA=1:500 0-10000

Storage

Store at -20 °C for one year. Avoid repeated freeze/thaw cycles. When reconstituted in sterile pH 7.4 0.01M PBS or diluent of antibody the antibody is stable for at least two weeks at 2-4 °C.

Protein Information

Name	IQCN (HGNC:29350)
Synonyms	KIAA1683
Function	Essential for spermiogenesis and fertilization (PubMed: 36321563). May be required for manchette assembly in elongating spermatids (By similarity).

Background

This product as supplied is intended for research use only, not for use in human, therapeutic or diagnostic applications.

Please note: All products are 'FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC OR THERAPEUTIC PROCEDURES'.
