

# PRR9 Polyclonal Antibody

Purified Rabbit Polyclonal Antibody (Pab)

Catalog # AP57516

## Product Information

---

|                   |                              |
|-------------------|------------------------------|
| Application       | WB, IHC-P, IHC-F, IF, ICC, E |
| Primary Accession | <a href="#">Q5T870</a>       |
| Reactivity        | Human                        |
| Host              | Rabbit                       |
| Clonality         | Polyclonal                   |
| Calculated MW     | 12904                        |

## Additional Information

---

|             |                                                                                                                                                                                                 |
|-------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Gene ID     | 574414                                                                                                                                                                                          |
| Other Names | Proline-rich protein 9, PRR9                                                                                                                                                                    |
| Dilution    | WB=1:500-2000,IHC-P=1:100-500,IHC-F=1:100-500,ICC=1:100-500,IF=1:100-500,ELISA=1:5000-10000                                                                                                     |
| Format      | 0.01M TBS(pH7.4) with 1% BSA, 0.09% (W/V) sodium azide and 50% Glyce                                                                                                                            |
| Storage     | Store at -20 °C for one year. Avoid repeated freeze/thaw cycles. When reconstituted in sterile pH 7.4 0.01M PBS or diluent of antibody the antibody is stable for at least two weeks at 2-4 °C. |
