

# RNF148 Polyclonal Antibody

Purified Rabbit Polyclonal Antibody (Pab)

Catalog # AP57969

## Product Information

---

|                   |                         |
|-------------------|-------------------------|
| Application       | WB, IHC-P, IHC-F, IF, E |
| Primary Accession | <a href="#">Q8N7C7</a>  |
| Reactivity        | Rat, Dog                |
| Host              | Rabbit                  |
| Clonality         | Polyclonal              |
| Calculated MW     | 34397                   |

## Additional Information

---

|             |                                                                                                                                                                                                 |
|-------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Gene ID     | 378925                                                                                                                                                                                          |
| Other Names | RING finger protein 148, RNF148                                                                                                                                                                 |
| Dilution    | WB=1:500-2000,IHC-P=1:100-500,IHC-F=1:100-500,IF=1:100-500,ELISA=1:5000-10000                                                                                                                   |
| Storage     | Store at -20 °C for one year. Avoid repeated freeze/thaw cycles. When reconstituted in sterile pH 7.4 0.01M PBS or diluent of antibody the antibody is stable for at least two weeks at 2-4 °C. |

## Protein Information

---

|                   |                                                                                                                          |
|-------------------|--------------------------------------------------------------------------------------------------------------------------|
| Name              | RNF148 ( <a href="#">HGNC:22411</a> )                                                                                    |
| Cellular Location | Membrane; Single-pass membrane protein                                                                                   |
| Tissue Location   | Abundantly expressed in testis and slightly in pancreas. Mainly present in the interstitial cells of testicular tissues. |
