

C6orf174 Rabbit pAb

C6orf174 Rabbit pAb

Catalog # AP59285

Product Information

Application	WB
Primary Accession	Q5TF21
Reactivity	Human
Predicted	Rat, Dog, Mouse, Chicken, Sheep
Host	Rabbit
Clonality	Polyclonal
Calculated MW	103199
Physical State	Liquid
Immunogen	KLH conjugated synthetic peptide derived from human C6orf174
Epitope Specificity	501-600/947
Isotype	IgG
Purity	affinity purified by Protein A
Buffer	0.01M TBS (pH7.4) with 1% BSA, 0.02% Proclin300 and 50% Glycerol.
SUBCELLULAR LOCATION	Membrane; Single-pass membrane protein (Potential).
Important Note	This product as supplied is intended for research use only, not for use in human, therapeutic or diagnostic applications.
Background Descriptions	Making up nearly 6% of the human genome, chromosome 6 contains around 1,200 genes within 170 million base pairs of sequence. Deletion of a portion of the q arm of chromosome 6 is associated with early onset intestinal cancer suggesting the presence of a cancer susceptibility locus. Porphyria cutanea tarda is associated with chromosome 6 through the HFE gene which, when mutated, predisposes an individual to developing this porphyria. Notably, the PARK2 gene, which is associated with Parkinson's disease, and the genes encoding the major histocompatibility complex proteins, which are key molecular components of the immune system and determine predisposition to rheumatic diseases, are also located on chromosome 6. Stickler syndrome, 21-hydroxylase deficiency and maple syrup urine disease are also associated with genes on chromosome 6. A bipolar disorder susceptibility locus has been identified on the q arm of chromosome 6. The C6orf174 gene product has been provisionally designated C6orf174 pending further characterization.

Additional Information

Gene ID	387104
Other Names	Microtubule cross-linking factor 3, MTCL3 (HGNC:21494), C6orf174, SOGA3
Dilution	WB=1:500-2000
Storage	Store at -20 °C for one year. Avoid repeated freeze/thaw cycles. When reconstituted in sterile pH 7.4 0.01M PBS or diluent of antibody the antibody

is stable for at least two weeks at 2-4 °C.

Protein Information

Name	MTCL3 (HGNC:21494)
Synonyms	C6orf174, SOGA3
Cellular Location	Membrane; Single-pass membrane protein

Background

This product as supplied is intended for research use only, not for use in human, therapeutic or diagnostic applications.
