

Anti-CD141 Antibody

Rabbit polyclonal antibody to CD141

Catalog # AP59716

Product Information

Application	WB
Primary Accession	P07204
Other Accession	P15306
Reactivity	Human, Mouse, Rat
Host	Rabbit
Clonality	Polyclonal
Calculated MW	60329

Additional Information

Gene ID	7056
Other Names	THRM; Thrombomodulin; TM; Fetomodulin; CD141
Target/Specificity	Recognizes endogenous levels of CD141 protein.
Dilution	WB~~WB (1/500 - 1/1000)
Format	Liquid in 0.42% Potassium phosphate, 0.87% Sodium chloride, pH 7.3, 30% glycerol, and 0.09% (W/V) sodium azide.
Storage	Store at -20 °C.Stable for 12 months from date of receipt

Protein Information

Name	THBD
Synonyms	THRM
Function	Endothelial cell receptor that plays a critical role in regulating several physiological processes including hemostasis, coagulation, fibrinolysis, inflammation, and angiogenesis (PubMed: 10761923). Acts as a cofactor for thrombin activation of protein C/PROC on the surface of vascular endothelial cells leading to initiation of the activated protein C anticoagulant pathway (PubMed: 29323190 , PubMed: 33836597 , PubMed: 9395524). Also accelerates the activation of the plasma carboxypeptidase B2/CPB2, which catalyzes removal of C-terminal basic amino acids from its substrates including kinins or anaphylatoxins leading to fibrinolysis inhibition (PubMed: 26663133). Plays critical protective roles in changing the cleavage specificity of protease-activated receptor 1/PAR1, inhibiting endothelial cell permeability and inflammation (By similarity). Suppresses inflammation distinctly from its anticoagulant cofactor activity by sequestering HMGB1 thereby preventing it

from engaging cellular receptors such as RAGE and contributing to the inflammatory response (PubMed:[15841214](#)).

Cellular Location Membrane; Single-pass type I membrane protein.

Tissue Location Endothelial cells are unique in synthesizing thrombomodulin

Background

KLH-conjugated synthetic peptide encompassing a sequence within the C-term region of human CD141. The exact sequence is proprietary.

Images

Western blot analysis of CD141 expression in HEK293T (A), mouse lung (B) whole cell lysates.
