

# Anti-Synphilin 1 Antibody

Rabbit polyclonal antibody to Synphilin 1 Catalog # AP59780

### **Product Information**

Application WB, IHC Primary Accession Q9Y6H5

**Reactivity** Human, Mouse, Rat

HostRabbitClonalityPolyclonalCalculated MW100409

## **Additional Information**

**Gene ID** 9627

Other Names Synphilin-1; Sph1; Alpha-synuclein-interacting protein

**Target/Specificity** KLH-conjugated synthetic peptide encompassing a sequence within the

C-term region of human Synphilin 1. The exact sequence is proprietary.

**Dilution** WB~~WB (1/500 - 1/1000), IHC (1/100 - 1/200) IHC~~WB (1/500 - 1/1000), IHC

(1/100 - 1/200)

Format Liquid in 0.42% Potassium phosphate, 0.87% Sodium chloride, pH 7.3, 30%

glycerol, and 0.09% (W/V) sodium azide.

**Storage** Store at -20 °C.Stable for 12 months from date of receipt

#### **Protein Information**

Name SNCAIP

**Function** Isoform 2 inhibits the ubiquitin ligase activity of SIAH1 and inhibits

proteasomal degradation of target proteins. Isoform 2 inhibits

autoubiquitination and proteasomal degradation of SIAH1, and thereby

increases cellular levels of SIAH. Isoform 2 modulates SNCA

monoubiquitination by SIAH1.

**Cellular Location** Cytoplasm. Note=Detected in cytoplasmic inclusion bodies, together with

SNCA

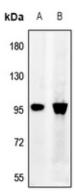

**Tissue Location** Detected in brain (at protein level). Widely expressed, with highest levels in

brain, heart and placenta

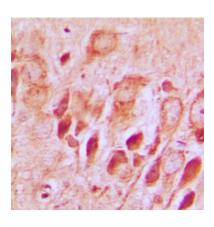

# **Background**

KLH-conjugated synthetic peptide encompassing a sequence within the C-term region of human Synphilin 1. The exact sequence is proprietary.

## **Images**

Western blot analysis of Synphilin 1 expression in PMVEC (A), BV2 (B) whole cell lysates.

Immunohistochemical analysis of Synphilin 1 staining in human brain formalin fixed paraffin embedded tissue section. The section was pre-treated using heat mediated antigen retrieval with sodium citrate buffer (pH 6.0). The section was then incubated with the antibody at room temperature and detected using an HRP conjugated compact polymer system. DAB was used as the chromogen. The section was then counterstained with haematoxylin and mounted with DPX.
