

# Anti-NEK5 Antibody

Catalog # AP60995

## Product Information

---

|                   |                        |
|-------------------|------------------------|
| Application       | WB                     |
| Primary Accession | <a href="#">Q6P3R8</a> |
| Reactivity        | Human, Mouse, Mk       |
| Host              | Rabbit                 |
| Clonality         | Polyclonal             |
| Calculated MW     | 81445                  |

## Additional Information

---

|                    |                                                                                                                                     |
|--------------------|-------------------------------------------------------------------------------------------------------------------------------------|
| Gene ID            | 341676                                                                                                                              |
| Other Names        | Serine/threonine-protein kinase Nek5; Never in mitosis A-related kinase 5; NimA-related protein kinase 5                            |
| Target/Specificity | KLH-conjugated synthetic peptide encompassing a sequence within the center region of human NEK5. The exact sequence is proprietary. |
| Dilution           | WB~~WB (1/500 - 1/1000)                                                                                                             |
| Format             | Liquid in 0.42% Potassium phosphate, 0.87% Sodium chloride, pH 7.3, 30% glycerol, and 0.01% sodium azide.                           |
| Storage            | Store at -20 °C.Stable for 12 months from date of receipt                                                                           |

## Protein Information

---

|                   |                                                             |
|-------------------|-------------------------------------------------------------|
| Name              | NEK5                                                        |
| Cellular Location | Cell projection, cilium. Cell projection, cilium, flagellum |

## Images

---

Western blot analysis of NEK5 expression in HEK293T (A), K562 (B), COS7 (C), MCF7 (D) whole cell lysates. (Predicted band size: 81 kD; Observed band size: 81 kD)
