

# ANKRD30A Polyclonal Antibody

Catalog # AP68415

## Product Information

---

|                   |                        |
|-------------------|------------------------|
| Application       | WB, IHC-P, IF, ICC, E  |
| Primary Accession | <a href="#">Q9BXX3</a> |
| Reactivity        | Human, Rat, Mouse      |
| Host              | Rabbit                 |
| Clonality         | Polyclonal             |
| Calculated MW     | 158835                 |

## Additional Information

---

|                    |                                                                                                                                                                     |
|--------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Gene ID            | 91074                                                                                                                                                               |
| Other Names        | ANKRD30A; Ankyrin repeat domain-containing protein 30A; Serologically defined breast cancer antigen NY-BR-1                                                         |
| Dilution           | WB~~Western Blot: 1/500 - 1/2000. Immunohistochemistry: 1/100 - 1/300. ELISA: 1/5000. Not yet tested in other applications. IHC-P~~N/A IF~~1:50~200 ICC~~N/A E~~N/A |
| Format             | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.09% (W/V) sodium azide.                                                                                       |
| Storage Conditions | -20°C                                                                                                                                                               |

## Protein Information

---

|                 |                                                                                                                                 |
|-----------------|---------------------------------------------------------------------------------------------------------------------------------|
| Name            | ANKRD30A                                                                                                                        |
| Tissue Location | Mainly expressed in breast and testis. A very faint signal is detected in placenta. Also expressed in many breast cancer cells. |
